

ABSTRACT

State Health Society – Prevention of Hemoglobinopathies – Establishment of Day Care Centres for Hemophilia & Hemoglobinopathies in 5 Government Medical College Hospitals of Tamil Nadu - Equipment & Human Resources - sanctioned – Orders – Issued.

Health and Family Welfare (EAP II-1) Department

G.O(Ms) No.505

Dated :30.10.2018
Vilambi, Ippasi- 13
Thiruvalluvar Aandu 2049

Read:

1. G.O(Ms)No 337, Health & Family Welfare Department (EAP II-1) dated 22.9.2017
2. From the Mission Director, National Health Mission, Tamil Nadu Ref.No.2498 / P/SHS/16, dated 24.05.2018.

ORDER:

The Hon'ble Minister for Health and Family Welfare Department has announced on 14.6.2018 on the floor of Assembly that Eight Staff Nurses will be provided to the Hemoglobinopathy ward in the five Government Medical College Hospitals at a cost of Rs.16 lakh.

2. In Government Order first read above, Government have issued necessary orders for implementation of the program "Prevention of Hemoglobinopathies" in 30 blocks of Tamil Nadu. Through this program, unmarried adolescent children above the age of 14 are screened for sickle cell anemia/thalassemia trait in Government /Government aided schools and in Anganwadi centres.

3. The Mission Director, National Health Mission has stated that the programme has been implemented in 4 districts as a pilot project and the proportion of children with Hemoglobinopathies trait is found to be around 9 - 12%(Source : monthly reports) Estimated Prevalance of inherited bleeding disorders like Hemophilia A & B, etc., in India is 0.9 /1,00,000 population. (Source: India Journal of Medical Research). Since case detection of such inherited blood disorders is required and requirement of a comprehensive day care centre to treat children already on treatment is essential, Government of India has issued certain guidelines on the issue. Based on the guidelines and reviews by expert teams, it is decided to establish 5 Day Care centres at regional zones to benefit such children requiring frequent blood transfusions due to Thalassemia or Hemophilia and also to establish treatment centres to provide Chelation therapy for other variant hemoglobinopathies. Hemoglobinopathies & Hemophilia are transfusion dependent /clotting factor dependent diseases, resulting in stress and psychological problems not only to the child but to the whole family. Management of thalassemia, Sickle Cell Disease patients and Hemophiliac patients through a Day Care Facility is convenient, economical and provides a supportive environment friendly area for

children with a chronic illness. It helps in better compliance and efficient monitoring of patients.

DAY CARE CENTRE OBJECTIVES

- (i) Day care centre will provide transfusion facility / ward with 10 - beds, where transfusion services on daily basis will take place in shifts to accommodate more patients including night shift for working or school going patients.
- (ii) Day care centre in the DEIC /Pediatric Department will have exclusive management protocols for transfusion therapy, transfusion reactions and chelation therapy
- (iii) Trained Pediatrician/Hematologist with nursing staff for treating complications, conducting regular transfusions, monitoring of growth and development and maintenance of records, during the period of blood transfusions with low staff turnover to provide continuity of care will be made available.
- (iv) Exclusive Laboratory Diagnostic kits for conduction of regular tests (serum ferritin, viral markers) for evaluation and monitoring purposes and Provision of Drugs like oral iron chelator drugs
- (v) Day care centre will have recreational facilities to keep children engaged during transfusion / other treatment.

4. The Mission Director, National Health Mission has further stated that it has been proposed to establish Comprehensive Day care Treatment centres for Hemoglobinopathies & Hemophilias in the following 5 Government Medical College Hospitals:-

1. Institute of Child Health and Hospital for Children , Government Madras Medical College Hospital, Egmore, Chennai 8 (Nodal Centre)
2. Government Dharmapuri Medical College Hospital, Dharmapuri
3. Government Rajaji Madurai Medical College Hospital, Madurai
4. Government Theni Medical College Hospital, Theni
5. Government Mohan Kumaramangalam Medical College Hospital, Salem

These facilities will be a 6 to 10 bedded day care centre to ensure adequate management and to serve as a baseline of minimum monitoring that is needed for care of these children & to prevent frequent school absenteeism among these children.

Statistics of children affected with Hemoglobinopathies & Hemophilia in the 5 Government Medical College Hospital :

Sl. No	Name of Government Medical College Hospital	Average No of admissions requiring blood transfusions/ month	Average No of Hemophiliac admissions requiring factor transfusions/ month	Average requirement for Deferisirox 500 mg Tablet for 3 months	No of Patients registered in Hemoglobinopathies registry in Medical College Hospital
1	Institute of Child Health & Hospital for Children (Madras Medical College)	85	25	10000	200
2	Dharamapuri Medical College Hospital	20	10	3000	42
3	Madurai Medical College Hospital	45	10	5000	45
4	Theni Medical College Hospital	11	4	1650	25
5	Salem Medical College Hospital	16	20	3000	45
	TOTAL	177	69	22650	357

5. The above proposal has been included in PIP and approved in Record of Proceedings 2018 - 19 by the Government of India as follows:

Sl. No	BUDGET HEAD	RECURRING COST (in Rs)	NON RECURRING COST (in Rs)	TOTAL
1	6.1.1.9a-Equipment for 5 Day Care centre	57,96,800	67,95,000	1,25,91,800
2	8.1.7.2.d-Human resources-Staff nurse for 5 day care centre	13,44,000	-	13,44,000
3	8.1.16.1-Multi-Purpose Hospital Workers	3,60,000	-	3,60,000
	TOTAL	75, 00,800	67,95,000	1,42,95,800

HUMAN RESOURCES BREAK UP :

FMR Code	Category	No.of posts	No. of months approved in principle	Cost for 1 month (in Rs.)
8.1.7.2.d	Staff nurse	8	12	1,12,000
