1. The Mission Director, State Health Society, Letter No.5836/P/SHS /11 dated 3.8.2011
2. From the Director of Public Health and Preventive Medicine, Letter No. 114356/MCH.3/2010/A1/ dated 30.1.2012

ORDER:

The Hon'ble Chief Minister has made the following announcements in the floor of the Legislative Assembly under rule 110 of the Legislative Assembly on

"31 Health Sub Centres which are located in the difficult and remote places will be upgraded as Level-I MCH Centres. 3 Nurses will be appointed in each of the centres to provide round the clock delivery services. A sum of Rs.19 crores would be spent for setting up of 42 MCH centres and upgrading 31 HSCs".

2. The Mission Director, State Health Society, in his letter read above has stated that the Government of India during the National Rural Health Mission (NRHM) and Reproductive and Child Health (RCH) reviews held in July / August 2010, have introduced the concept of identifying health facilities for offering various levels of Maternal and Child Health care. While Level-I care refers to 24x7 delivery services through trained personnel, Level-II care refers to the provision of emergency obstetric care and management of obstetric emergencies. Based on this concept, a policy decision was taken that all the PHCs in the state will continue to function as Level-I centres for MCH care as adequate infrastructure and staff are already available. The Director of Public Health and Preventive Medicine in consultation with district level Deputy Director of Health Services has identified 31 Health Sub Centres (HSCs) which are remote and do not have easy access to the PHCs to provide 24x7 delivery care to function as Level-I MCH care centres. He has also stated that out of the existing PHCs with operation theatres, the Director of Public Health and Preventive Medicine has identified 42 facilities at the rate of one facility per Health Unit District to function as Level-II MCH Care Centres. These centres will be strengthened to provide Emergency Obstetric Care and Safe Abortion Services in addition to the existing RCH package of Ante natal and Post natal care, Sterilization Services including temporary methods

Adolescent Clinics, RTI/ STI management etc. It is also proposed to set up Newborn Stabilization Units in these centres. Adequate supervision will be provided to guide and improve quality of care in the centres. These centres have been selected in such a way that they provide emergency services in locations which are not adequately served by existing CEmONC centres.

3. The Mission Director, State Health Society has further stated that the HSCs identified as Level-I Maternity and Child Health centres will be provided with two additional VHNS, a sanitary worker, necessary drugs and equipments in addition to renovation of the existing buildings to provide round the clock delivery services. The upgraded PHCs identified as Level-II Maternity and Child Health centres will be provided with 2 additional doctors (preferably specialists), 3 more Staff nurses, pharmacist, junior assistant, PHC worker, sanitary workers, necessary drugs and equipments and renovation of the existing buildings etc. as additional inputs to achieve the objectives. As per National Rural Health Mission guidelines, all posts should be on contract basis. However, during the Sub group and NPCC meetings, the State has informed the Government of India that the Medical Officer, Pharmacist and Junior Assistant will be filled up on regular time scale of pay as per the State Government policy and pay will be drawn through treasury and consolidated amount based on the lowest slab of time scale will be budgeted under National Rural Health Mission and remitted into the Government Treasury. This has been accepted by Government of India. The other categories i.e. Staff Nurse, PHC Worker, Village Health Nurse and Sanitary Worker will be filled up on consolidated pay. The above proposal was included in the State PIP 2011-12 for a total cost of Rs.1897.13 lakhs and also approved by the NPCC and the 15th Executive Committee of State Health Society in the meeting held on 21.6.11. The Mission Director, State Health Society has requested necessary Government Orders to implement the above Project.

4. The Government have carefully examined the above proposal of the Mission Director, State Health Society and decided to accept the proposal. They accordingly issue the following orders:

- i. The Mission Director, State Health Society and the Director of Public Health and Preventive Medicine are permitted to establish 31 Level-I Maternal and Child Health centres and 42 Level-II Maternity and Child Health Centres in the HSCs and Primary Health Centres indicated in the Annexure-I and II to this Government order respectively at a cost of Rs.1944.45 lakhs and to incur the following expenditure towards the establishment of these centres from the National Rural Health Mission and RCH Funds:
