ENSURE REGISTRATION OF EVERY BIRTH AND DEATH

PREFACE

Birth and Deaths are the two most important vital events that define life of an individual. Not only do they describe the legal existence of an individual, registration of these events is a primary source of vital data of the population to which they belong. Civil Registration is a continuous, permanent, compulsory recording of the occurrence and characteristics of vital events, like births, deaths and still births. These vital statistics are invaluable for planning, monitoring and evaluating various programmes related to primary health care, family planning, maternal and child health, education etc. Information collected through the registration process about vital events provides useful and important statistics.

2. *This issue of the Report on 'Vital Statistics of India based on the Civil Registration System' for the year 2024 provides an overview of the working of the Civil Registration System (CRS) in the country and presents a compilation of data on registered births, deaths, infant deaths and still births with rural-urban & sex-wise break-up and sex ratio at birth based on Civil Registration Records. Based on the Annual Reports of the States/UTs, the report for the year 2024 containing key information of events pertaining to the period 1st January 2024 to 31st December 2024 has been brought out for the convenience of users.*

3. *The publication is divided into two parts. Part-I provides a brief review of the Civil Registration System and contains a summary analysis of data on registered births, deaths, infant deaths and sex ratio at birth based on registered births at the State level. Part-II consists of the main tables which provide State and District-wise data on registered births, deaths, infant deaths and still births with rural-urban & sex-wise break-up.*

4. *The data source for the report is the statutory Annual Statistical Report prepared by the Chief Registrars of Births & Deaths of States/UTs. I take this opportunity to express my sincere gratitude to all the Chief Registrars of Births & Deaths of various States/UTs for their kind cooperation in providing the requisite information. I am thankful to each one of them for their invaluable and continuing cooperation.*

5. *I would like to take this opportunity to mention that the Registration of Births & Deaths Act (RBD Act), 1969 has been amended for the first time since its inception, through the Registration of Births & Deaths Act, 1969(Amended in 2023) (No. 20 of 2023) with a view to accommodate changes and new developments in the society during the last five decades. Various provisions of the Act have been suitably amended to enhance the convenience of general public in getting the events registered. I am hopeful that more dynamic implementation of the provisions of the RBD Act 1969(amended in 2023) shall help reduce the time gap and establish this as a reliable source of information on Birth and Death registration in the country.*

6. *The report has been prepared by the CRS Section of this office. I would like to place on record my appreciation for the efforts put in by all the officers and staff working in the CRS Section of the Office of the Registrar General and the Officers/Staff connected with the Civil Registration System in the States/UTs.*

29. Registration of births and deaths made prior to implementation of the RBD Act, 1969 (amended in 2023) is deemed to have been done under the said Act.
30. On adoption of a child, the name of the adoptive parents and a new name for the child can be entered in the birth register.
31. Provision for redressal of grievances of general public aggrieved by any action or order of the Registrar or District Registrar.
32. Creation of National and State level databases of registered births and deaths which would help in updating other databases resulting in efficient and transparent delivery of public services and social benefits.

EXECUTIVE SUMMARY

Civil Registration System (CRS) in India is the unified process of continuous, permanent, compulsory, and universal recording of vital events (births, deaths, stillbirths) and characteristics thereof. The Registration of Births and Deaths Act, 1969 (as amended in 2023) provides for the compulsory registration of births and deaths. Civil Registration records are the best source of Vital Statistics. For the individual, records emanating from CRS provides her/his legal identity and access to the rights of a citizen including entitlements (social benefits provided by the Government). For the country, the requirement of a complete Civil Registration System is a must as it has important administrative and statistical uses. The data generated through a complete and up to date CRS is essential for socio-economic planning and to evaluate the effectiveness of various social sector programmes. They also serve as the cornerstone of the public health system. The Annual Report on Vital Statistics of India based on Civil Registration System for 2024 has been brought out on the basis of reports provided by the Chief Registrar of Births and Deaths of respective States/Union Territories. The main features of the Annual Report are summarized below:

GLOSSARY OF TERMS

Birth: Live birth or still birth.

Live birth: Complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy, which, after such expulsion or extraction, breathes or shows any other evidence of life, and each product of such birth is considered live-born.

Still Birth: Foetal death where a product of conception has attained at least the prescribed period of gestation.

Death: Permanent disappearance of all evidence of the life at any time after live birth has taken place.

Infant Death: Death of a child less than one year old.

Level of Registration: The level of registration, defined as the percentage of registered births/deaths to the births/deaths estimated through SRS, determines the performance level of a State / Union territory with regard to functioning of Civil Registration System.

$$\text{Level of Registration (LOR)} = \frac{\text{Number of events registered during the year}}{\text{Number of estimated events for the year}} \times 100$$

$$\text{Number of estimated events for a year} = \text{Mid - year population} \times \text{SRS Rate}$$

Mid-year Population: Population at the mid-point of the year, i.e., 1st July of the year provided by population projections based on 2011. (Source: Population Projections for India and States 2011–2036, Report of the Technical Group on Population Projections constituted by National Commission on Population, July. 2020)

Sex Ratio of Registered Birth:

$$\text{Sex Ratio of Registered Birth} = \frac{\text{Number of female births registered during the year}}{\text{Number of male births registered during the year}} \times 1000$$

Delayed Registered Birth events of more than one year have been duly deducted for arriving the sex ratio of Registered Birth

Gross Natural addition to the Population = Total Registered Births – Total Registered Deaths

CIVIL REGISTRATION SYSTEM - AN INTRODUCTION

1.1 The requirement for a complete and up to date Vital Statistical System to yield reliable data on vital events hardly needs any emphasis. These data are essential for socio-economic planning and development and also to evaluate the effective implementation of various public schemes and programs. The main sources of data on vital events in India are Civil Registration System (CRS), Sample Registration System (SRS) and Population Census. Though the Population Census is the main source of information on population and its characteristics; however, being a decennial exercise, it does not provide the measure of changes in population from year to year. The measures of fertility and mortality derived from Census are centered on the midpoint of the decade and as such do not provide yearly change in the population. Of the other two sources of vital statistics for getting the vital rates on a regular basis, the SRS has been designed to provide reliable estimates at National and State level. Robust estimates of vital rates at District level on an annual basis through sample survey are difficult to obtain on account of prohibitively large sample size and variety of resultant factors such as controlling of non-sampling errors etc. CRS is thus the only source for providing vital rates at district level. Rather, a complete CRS can provide these rates at lower administrative levels as well.

1.2 The Civil Registration System (CRS) may be defined as a unified process of continuous, permanent, compulsory and universal recording of the vital events and characteristics thereof, as per legal requirements in the country. In India, the Civil Registration System covers registration of births and deaths. Registration of marriages and divorce are not covered under the CRS in India. Civil Registration System provides the best source of information on the vital rates at all levels. Ensuring cent percent coverage of vital events by registration machinery can help in getting the critical vital statistics at all administrative levels, important for planning and research. Therefore, emphasis should also be given to the proper monitoring of the activities under the system. Civil Registration System is considered to be complete if it covers 100 percent births and deaths taking place within a country or area and birth and death certificates are issued to all registered events.

1.3 The registration records are primarily useful for their value as legal documents and secondarily as the source of vital statistics. Civil registration as a source of vital statistics is relatively less expensive, as the statistics generated from the registration records are the by-products of an essential administrative process. The registration records can also generate current and continuous statistics, which can be more accurate than any other method of data collection apart from being a continuous source of such data. However, the accuracy of the vital statistics obtained through the registration system depends much on the completeness and promptness with which events are registered and the correctness of the information in the registration records. The improvement in the system of registration of births and deaths is critically dependent on the importance given by the respective States and District administrations to this work and regular monitoring by them. Besides, the level of awareness

among the general public about the utility of birth or death certificate is also equally and crucially important.

1.4 Vital statistics obtained through registration records at different administrative levels enable estimation of the size, demographic structure and geographical distribution of the population except for migration. Vital statistics also enables the projections for coming years on the basis of probable trends of fertility and mortality as derived from these vital statistics and their interactions with social, economic and other demographic factors. The vital statistics data generated through an effective Civil Registration System is of immense use for formulation of various development and welfare programmes/ schemes and increases their effectiveness at State and District level. The Civil Registration data acquires paramount importance in the wake of 73rd and 74th amendments to the constitution of India, as it can provide data at local level for micro level planning, monitoring and evaluation of schemes. At national level, the vital statistics data generated through Civil Registration is also quite useful for medical research and in the study of sex ratio, mortality rates and also in the study of causes of deaths.

Registration of births and deaths in India

1.5 In India, the registration of births and deaths is mandatory under provisions of the Registration of Births and Deaths (RBD) Act, 1969(18 of 1969). The Act is administered by the Office of the Registrar General of India (ORGI) and implemented by States/UTs. The Chief Registrar is the Chief executive authority in the State for carrying into execution the provisions of the Act and the rules and orders made thereunder.

1.6 Provision for registration of births and deaths and the mechanism thereof had been in existence in India for more than a century. Earlier, the work of registration of birth and death was carried out under various laws and by-laws existing at that time in different parts of the country. The need for improvement in the vital statistics system was felt for long and, therefore, after detailed deliberations at various levels, the Registration of Births & Deaths Act, 1969 was enacted providing compulsory registration of births and deaths in India. Since then, this Act has been enforced uniformly across all the States and Union Territories (UTs). This Act provides for mandatory registration of births and deaths and publication of statistical reports annually based on the civil registration data. The enactment of this Act has provided a common framework for putting in place an effective system of registration of births and deaths in the country.

1.7 In order to simplify and speed up the process of registration and to bring in uniformity in birth and death registration formats, the registration system was revamped in the year 2000. Under the revamped system, the procedure for registration of births and deaths was also modified to some extent and the forms were redesigned. The revamped system became operational in 2000 in all States/Union Territories except Assam, Arunachal Pradesh, Gujarat, Haryana, Himachal Pradesh, Jharkhand, Odisha, Punjab, Uttarakhand, and Uttar Pradesh. It was implemented in Assam, Arunachal Pradesh, and Odisha in 2001, Haryana in 2002, Himachal Pradesh, Uttarakhand, and Uttar Pradesh in 2003, Gujarat and Punjab in 2004, and Jharkhand in 2009.

1.8 The Registration of Births and Deaths Act, 1969 has been amended through the Registration of Births and Deaths (Amendment) Act, 2023 (No. 20 of 2023) and published in the Gazette of India on 11th August, 2023. The provisions of the amended Act have come into force with effect from 1st day of October, 2023 (Gazette of India, No. 3896 dated 13th September, 2023). The highlights of amendment may be seen in the following box:

Major Highlights of Registration of Births and Deaths (Amendment) Act, 2023

- (i) Insertion of provisions for digital registration and electronic delivery of certificate of births and deaths for the benefit of public at large;***
- (ii) Creation of National and State level databases of registered births and deaths which would help in updating other databases resulting in efficient and transparent delivery of public services and social benefits;***

- (iv) Changing the ordering authority from Magistrate of the first class or Presidency Magistrate to District Magistrate or Sub-Divisional Magistrate or an Executive Magistrate authorized by the District Magistrate in the case of delayed information of any birth or death to the Registrar after one year of its occurrence and submission of self-attested document instead of an affidavit made before a Notary Public in the case of delayed information of any birth or death to the Registrar after thirty days but within one year of its occurrence;***
- (v) Facilitate registration process of adopted, orphan, abandoned, surrendered, surrogate child and child to a single parent or unwed mother;***
- (vi) It is mandatory for all medical institutions to provide a certificate as to the cause of death to the Registrar and a copy of the same to the nearest relative;***
- (vii) Appointment of Special "Sub-Registrars" in the event of disaster or epidemic for speedy registration of deaths and issue of certificates;***
- (viii) Collection of Aadhaar numbers of parents and informant, if available, in case of birth registration;***
- (ix) Provision for redressal of grievances of general public aggrieved by any action or order of the Registrar or District Registrar; and***
- (x) Enhance the penalties provided in the Act.***

Statistical Reports

1.9 System of registration of births and deaths is constantly generating statistical information at the local level. The information contained in the reporting forms is consolidated by the Registrar for onward transmission to the Chief Registrar of Births & Deaths or to any officer specified in the concerned State/UT. The Chief Registrar of the States/UTs, who are the chief executive authorities for the activities on registration of Births and Deaths in the State/UT, are mandated to submit to the State Government Annual Report on the Working of the Act in the State/UT along with the Statistical Report referred under section 19(2) on registered births and deaths for each year immediately following the year to which the report relates to. The Chief Registrars are also required to send a copy of these Reports to the Registrar General of India, Govt. of India.

1.10 Based on the Annual Reports prepared by the States/UTs, the Office of the Registrar General of India, brings out an annual comprehensive report entitled “Vital Statistics of India based on Civil Registration System”. These reports have been brought out since 1958 (Before the enactment of the Act, only statistical reports were brought out). However, some of the States are not bringing out their Annual Statistical Reports in time, and this in turn, delays the publication of the corresponding national report. It has also been observed that some States also do not include all the prescribed tables in their reports thereby creating a limitation while bringing out the national report. However, notwithstanding all these constraints, this report provides vital indicators including the District-wise registered births and deaths along with infant deaths with the sex-wise and rural-urban break-up of registered events for the year 2024.

CHAPTER-II

ANNUAL REPORT FOR 2024 ON THE WORKING OF THE REGISTRATION OF BIRTHS AND DEATHS (RBD) ACT, 1969 (AMENDED IN 2023)

2.1. **Annual report on the working of the Registration of Births and Deaths (RBD)**

Act, 1969(Amended in 2023): Under the provision of Section 4 (4) of the Act, the Chief Registrars are required to submit an Annual Report on the working of the RBD Act to the respective State Governments once approved, a copy of the same is sent to the Office of Registrar General of India (ORGI). The ORGI compiles the reports received from States/UTs and release the working of RBD Act report at National level. The aforesaid Annual Report for the year 2024 has been received from all the States/UTs.

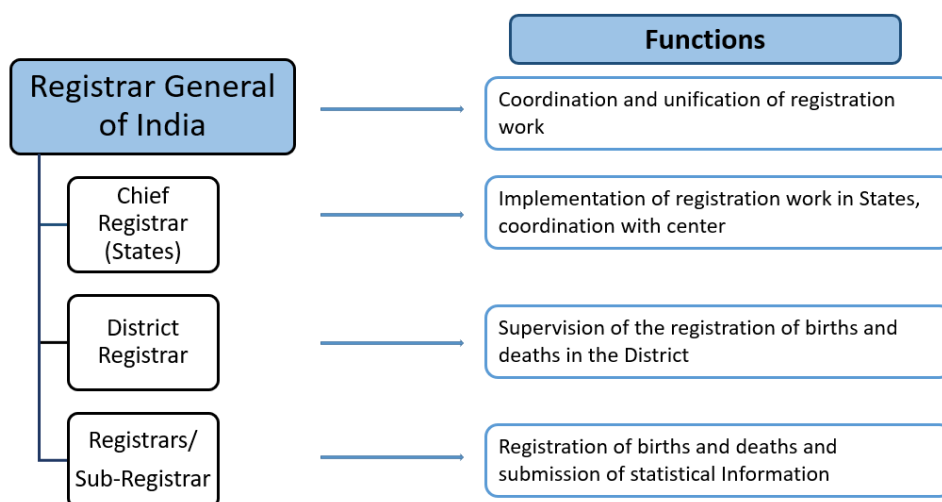

2.2. **Registration Machinery:** Section 3 to 7 of the Registration of Births and Deaths (RBD)Act, 1969(amended in 2023) provides for the appointment of Civil Registration System functionaries at all administrative and Jurisdictional levels viz.: -

- (i) National level:- Registrar General of India; (Section 3 of the RBD Act)
- (ii) State level:- Chief Registrar; (Section 4 of the Act)
- (iii) District level: - District Registrar/Additional District Registrar (Section 6 of the Act)
- (iv) Local area level: - Registrar for a village, Panchayat, municipality, municipal Corporation, or other local bodies; (Section 7(1) of the Act), and;
- (v) Sub-Registrar for specified area within the area under the jurisdiction of a Registrar (Section 7 (5) of the Act).

The Registrar General of India (RGI) at Central level takes steps to coordinate and unify the activities of Chief Registrars of all States/Union Territories and issues general directions regarding registration of births and deaths under section 3(3) of the Act. The work relating to Civil Registration in the office of the Registrar General of India is handled by the Vital Statistics Division.

The Chief Registrar, appointed by the State Government, is the chief executive authority in the respective States/ UTs for implementing the provisions of RBD Act and the Rules and orders made thereunder. The State Government also appoints District Registrar of births and deaths for each revenue district. The actual work of registration of births and

deaths in the field is carried out by the local Registrars, who are also appointed by the State Government

There is a wide variation in the registration machinery across the country, details of which are given below: -

➤ The Chief Registrars of births and deaths in 17 States (Andhra Pradesh, Assam, Gujarat, Haryana, Himachal Pradesh, Maharashtra, Manipur, Meghalaya, Odisha, Punjab, Sikkim, Tamil Nadu, Telangana, Tripura, Uttar Pradesh, Uttarakhand and West Bengal) and 4 Union Territories (A& N Islands, Chandigarh, Ladakh and Lakshadweep) are from the Health Department, in 10 States (Arunachal Pradesh, Bihar, Chhattisgarh, Goa, Jharkhand, Karnataka, Madhya Pradesh, Mizoram, Nagaland and Rajasthan) and 2 Union Territories (Delhi and Jammu & Kashmir) are from Planning, Economics & Statistics Department, in 1 State (Kerala) from Local Self Government Department, in UT of Dadra & Nagar Haveli & Daman & Diu, Finance Secretary/Secretary (Planning & Statistics) and in remaining 1 UT (Puducherry) it is with Local Administration Department.

➤ The district level authorities in the States/UTs such as District Collectors/ District Magistrate, Additional Collector, Chief Medical Officers/ District Medical and Health, Civil Surgeon, District Statistical/ Planning Officers, Deputy Commissioner, Deputy Director (Panchayat) and Dy. Director (local administration) are appointed as District Registrar.

➤ In rural areas, the registration work is entrusted to the officials of Panchayat Department, Health Department, Revenue Department and Education Department. While in urban areas, the Health Officer of Municipal Corporation / Municipalities etc. or in absence of such a post, the Executive Officer of the town administration functions as the Registrar of

Births and Deaths (State and UT wise details of registration functionalities are attached at Annexure-A).

2.3 Registration of Births and Deaths occurring to Indian Citizens abroad: Under the provisions of the Citizenship Act, 1955, events relating to the births and deaths of Indian citizens occurring abroad are registered by the respective Indian Missions and Consulates. Further, under Rule 5 of the Citizens (Registration at Indian Consulates) Rules, 1956, Indian Consulates are statutorily required to send annual returns of such births and deaths to the office of the Registrar General of India (RGI).

In this regard, Section 20(1) of the Registration of Births and Deaths Act, 1969, as amended in 2023, provides a special provision for the registration of births and deaths of Indian citizens outside India. *The provision States that the Registrar General of India shall, subject to such rules as may be made by the Central Government in this behalf, cause to be registered information as to births and deaths of citizens of India outside India received by him under the rules relating to the registration of such citizens at Indian Consulates made under the Citizenship Act, 1955 (57 of 1955), and every such registration shall also be deemed to have been duly made under the RBD Act(amended in 2023).*

It has been observed that requisite returns are not furnished by all Indian Missions/Consulates; such returns for the year 2024 have been received from 182 missions located in 140 countries, covering 66413 births and 11384 deaths. As can be seen from the Statement 3 below, out of the total registered births at the various missions during 2024 Mission/Consulate in Dubai, UAE registered 13927 i.e. about 21.0 per cent of the total births registered abroad, followed by Mission/Consulate in London which is at 11.5 per cent. In case of Deaths, Mission/Consulate in Dubai, UAE registered 2020 i.e. 17.7 per cent of the total deaths registered abroad followed by Mission/Consulate in Riyadh, Saudi Arabia which is at 11.8 per cent.

2.4 Inter Departmental Coordination Committees (IDCC): In order to resolve the operational problems and for proper implementation of the provisions of the RBD Act and corresponding State Rules, coordination among the implementing departments is essentially required. On the other hand, the work of registration of births and deaths in most of the States/UTs is being done through the officials drawn from more than one department of the State Government/Union Territory Administration. The need for coordination between the stake holder departments is a pre-condition for effective functioning of the system in each of the State. In view of above, the State level Inter-Departmental Coordination Committees (IDCCs) have been constituted in States and Union Territories. In most of the States / UTs, IDCC is chaired by the Principal Secretary/Secretary of the Department to which the Chief Registrar belongs.

In order to formulate the strategies for further improvements in Civil Registration System and effective implementation of the provisions of the RBD Act in the respective State, it is desired to convene the meeting of such committee at least once in a year. However, it has

been observed that despite persuasion of this office from time to time, such meetings have not been convened regularly by most of the States/ UTs.

During 2024, IDCC meetings were held in only 21 States/UTs namely Arunachal Pradesh, Bihar, Chhattisgarh, Gujarat, Haryana, Himachal Pradesh, Karnataka, Kerala, Madhya Pradesh, Meghalaya, Mizoram, Nagaland, Odisha, Punjab, Rajasthan, Tripura, Uttar Pradesh, Uttarakhand, West Bengal, Chandigarh, and Puducherry.

Such Coordination Committees have also been set up at District and below district level (i.e. at Mandal and Taluka level) in many States. However, the information on convening the regular meeting of District Level Coordination Committees (DLCCs) and below district level committee meetings has not been received from all the States/UTs. The following information regarding district level and below district level coordination committee meetings during 2024 has been provided by the Chief Registrars of State/UT in their respective annual report:-

- **Andhra Pradesh:** During the year 2024, no IDCC meeting was held. However, 2 meetings were held at Chief Secretary level on CRS during the year with all other line department officials. It gave a boost to CRS Programme in the state.

- **Kerala:**
 - Civil Registration has been computerized in all the registration units by using the softwares developed by Information Kerala Mission. ‘Sevana’, the software application developed by IKM for the registration of births and deaths was launched in the year 2005 in all the 5 Municipal Corporations of the State and subsequently extended to all the Municipalities, Grama Panchayats and Cantonment Board. The computerized registration system was fully implemented in all the Registration Units by the year 2009. Later, an exclusive web site (cr.lsgkerala.gov.in) was launched for civil registration, where the certificates of registrations in the Sevana local application were made available within 24 hours of registration of the event and could be downloaded by the public
 - Under the Hospital Kiosk Project, online registration of birth and death events occurring in hospitals has been implemented in 6 Corporations, 70 Municipalities and 243 Gram Panchayats up to the end of 2024.
 - Under this Project, the report of births and deaths are sent to the Registration Unit as electronic data through telephone line from the kiosks, which are functioning in the hospital. The electronic report received at the Registration Unit is registered after verification and the certificate under Section 12 is issued through the hospital. Efforts are made to issue the birth certificate before the mother and baby leaves the hospital.
 - K-SMART, a new web application was implemented in all Urban Local Self Governments of the State with effect from 1st April, 2024. The system was implemented in one Grama Panchayat also as a pilot for the implementation in all rural Local Governments. The civil registration records of Sevana software were transferred to K-SMART and the reporting of the events are being done through the login of the individuals and persons responsible for the non-domestic events.

- **Madhya Pradesh:** Online registration of births and deaths has been initiated from 01-01-2015 in the State of Madhya Pradesh using ORGI uniform CRS portal. During 2024, 1996172 and 573608 births and deaths were registered respectively.
- **Maharashtra:** In the urban and rural areas of the State, the ORGI uniform CRS portal is being used for registration of birth and death events from 2016 onwards.
- **Manipur:** Since 15th May 2024, all registration Units are using Online CRSORGI Portal for registration in the State.
- **Meghalaya:** Online registration process was implemented in 46 Registration Units. Computerization of old Civil Registration Records has not been possible due to lack of fund.
- **Mizoram:** Digitization of all the Civil Registration Records in Mizoram was completed during 2019. These digitized records contain some minor errors and the same are being rectified. Online Registration is not yet done at the Registration Unit level. However, online submission to ORGI's CRS portal of all the reports of live Births, still births and deaths are done at the respective ADR Offices. Moreover, all the records are also kept in digitized form in the State specific software 'CRS Mizoram'.
- **Nagaland:** Births & Deaths data is compiled through computerization in every district headquarter. Online registration of births and deaths through CRS ORGI portal was launched in the state on 19th April 2022. Currently the Registration units in the village/block level are functioning manually only but efforts are being made through training for digitization of CRS in the rural areas. Online registration at district level not functional due to connectivity issues. The State is taking concrete steps to upgrade the ICT capability of the district headquarters for implementation of the ORGI uniform CRS portal for online registration.
- **Odisha:** Online registration of births and deaths in 116 urban registration units and all 314 Rural registration units started from 01.01.2021 in OBDRS portal, developed by the State, and is continuing till date.
- **Punjab:** The e-Sewa application was introduced by the Department of Governance Reforms (DoGR), Punjab in July, 2019 after revamping the earlier e-District application. The services of issuance of birth and death certificate, addition of name of child, correction in record, delayed registration of birth and death and inclusion of adoptive parents' names in birth certificate under Adoption Services have been included in the e-Sewa application and 541 Sewa Kendra's were established in the State. All the birth and death certificates are now being issued electronically through eSewa portal. If a citizen applies for a birth or death certificate and the relevant registration record is still maintained in manual form then the

related entry is digitized through eSewa application and then a computer-generated certificate is issued.

➤ **Rajasthan:** The online registration of births and deaths through the web portal 'Pehchan' is being done since 01.01.2014 in the State. 100 percent computerization and online registration is going on in the State.

➤ **Sikkim:** In the State, out of total 33 registration units, 19 were working online since 2019 and since March 2023, all 14 remaining registrations units started functioning online on ORGI uniform CRS software (www.crsorgi.gov.in). Registration of births and deaths record in physical form for the period 2015 to Dec, 2022 around 40,000 data records digitization process is going on with the fund provided by the state government

➤ **Tamil Nadu:** The common CRS software (www.crstn.org) is implemented uniformly throughout the State from 2018 onwards for registration of birth and death and to issue/download the birth and death certificates. 2.11. Difficulties encounter in implementation of the Act: Some of the States have furnished the details of problems facing in implementing the provision of RBD Act and State

Rules in the State/UT. The brief points given by the State Governments in their annual report is summarized below: -

- **Andhra Pradesh:** No fresh sanction of posts of Statistical staff was made in 2024. The lack of budget under CRS and MCCD towards trainings, Publicity, inspection and printing of forms affects the successful implementation of RBD Act in the State. There are about 1.8 crore legacy events in UBD Portal of State. The data porting from UBD to CRS software need to be completed.
- **Assam:** Out of 35 districts, Only 18 have dedicated DPAs who has responsibility of implementing the Act in their districts while other districts are managed by other category officers.
- **Bihar:** Non-timely reporting of events by the informant and difficulties faced by the Districts in implementation of the RBD Act were removed during the year 2024.
- **Goa:** All the Births & Deaths records from 1971 onwards have been computerized; there is a possibility of damage to the physical Birth/Death records as the Registers containing these records are worn out over the years. Therefore, this Office is planning to digitize these physical records during the year 2024, so that the same can be stored in the digital format, before getting fully damaged.
- **Gujarat:** Some post such as Research Officer, Research Assistant and Statistical Assistant are lying Vacant this results in delay in administrative/technical work.
- **Haryana:** no publicity related activity was conducted during the year 2024 due to lack of Budget.
- **Himachal Pradesh:** In State's hilly terrain, Poor internet connectivity and frequent power outages and inadequate IT infrastructure at registration offices makes real time online data entry challenging. Lack of training of Staff in new digital forms in amended Act(inclusion of new fields etc). Moreover, shortage of manpower and budget in most of the health institutions across State and District Headquarter is also affecting the routine working of online CRS.
- **Jharkhand:** Some difficulties are encountered in implementing the provisions of RBD Act and Rules in respect of delayed registration. Difficulties in timely submission of reports and supervision due to lack of Block Statistical Supervisor at block level. Difficulties under uniform CRS software in obtaining affidavit by general public for reporting events after 30 days of occurrence.

- **Karnataka:** Inadequacy of staff at all levels. Lack of administrative authority of the Chief Registrar over registration functionaries.
- **Kerala:** Pre-occupation of Registrars and other functionaries with other duties. Damage caused to very old registration records. Non-registration of large chunk of infant and child deaths particularly in rural areas. Inclusion of details without care in registration by the public and request for correction of particulars in the registers as entered in other documents pertaining to the individuals. Lack of proper training are some of the difficulties faced in the implementation of the Act.
- **Madhya Pradesh:** Vacant posts of Assistant Statistical Officer, Statistical Clerks and Clerks in various Municipal Corporations and Municipalities; Lack of control over Notifiers in the rural areas.
- **Maharashtra:** In rural area yet to perceive, the real need of the registration of births and deaths. The Gram Sevaks who is Ex-officio Registrar of births and deaths, has to cover many villages due to vacant posts. The situation may improve with increase by appointing Gram sevak where posts are vacant as well as if possible appointing assistant for day to day birth and death registration work.
- **Mizoram:** The geographic location of the State has affected the registration process. Gap in communication and transportation facilities hampers timely reports making it difficult to consistently maintain 100% level of reporting.
- **Nagaland:** Inadequate postal, transportation and communication facilities. Lack of remuneration for CRS functionaries, delay in submission of reports by Registrar and low level of awareness and lack of Budget for CRS activities are some of major difficulties in the State.
- **Odisha:** There is shortage of staff/manpower in the State.
- **Punjab:** There is a shortage of Staff especially technical staff at all levels. More and more technology is being involved in this work and various other softwares, being used by different departments, are also being interlinked with the eSewa software.
- **Rajasthan:** Difficulties relating to implementation of Act in some cases such as penalty, number of copies, adoption etc. were observed.
- **Tamil Nadu:** Non-availability of funds for sustaining the registration of births and deaths through online facility in terms of software and hardware, inspection of registration units, organizing training programme for CRS functionaries, Publicity on CRS at State/Districts/Registration Unit levels etc.
- **Telangana:** Lack of Sub registrars and statistical staff in Municipalities. Large number of vacant posts of Panchayats Secretaries.

- **Tripura:** Revamped CRS ORGI portal was launched in the State on 5th June, 2024 and issues pertaining to problems faced by the State were informed through various modes. Work in various Registration units get hampered and more technical support is need from the Technical Team of ORGI.
- **Uttarakhand:** There is lack of registration information and the computerization of old civil registration record/work is also not being done properly. Lack of manpower, training, publicity, remote rural area and a lot of posts are lying vacant in birth-death registration cadre of Health department are posing difficulties in effective implementation of RBD Act.
- **West Bengal:** As such, there is no difficulty in the implementation of the Act at the field level. However, there are 196 registration units functioning without Data entry operators. As per section 8(1)(a) of the RBD Act 1969 (Amendment 2023) the public has been made responsible to give report of all births and deaths occurring in a house within the stipulated time limit. As such extensive publicity measures are required to be adopted from time to time for the awareness of the people for reporting of all vital events.
- **Chandigarh:** No major difficulties were encountered in the implementation of the Act during the year 2024. All Government Registration Units, Private Hospitals, and Nursing Homes are functioning smoothly on the CRS portal.
- **Puducherry:** No difficulties encountered in implementing RBD Act since compulsory Registration of vital events is mandated under the RBD Act 1969 (Amendment 2023).

CHAPTER – III

A BRIEF ANALYSIS OF DATA ON REGISTERED BIRTHS, DEATHS AND INFANT DEATHS

3.1 Births and deaths are the two most important vital events in the life of an individual and for society as a whole. Based on the data collected under the Civil Registration System on registered births and deaths, this chapter presents the trend in the number of registered events and other related indicators, at the State and National level.

3.2 The Registration Unit in the Civil Registration System is the most important entity responsible for registering events such as births and deaths, issuing of certificates, maintenance of CRS records and reporting to higher authorities. The number of registration units for the year 2024 at the national and States/UTs level with rural/urban details may be seen in Statement 8.

3.3 The highest number of registration units i.e. 62780 are working in Uttar Pradesh, followed by 44076 in Maharashtra, 38972 in Karnataka and 24550 in Madhya Pradesh. Registration Units in 10 major States, namely, Uttar Pradesh, Maharashtra, Karnataka, Madhya Pradesh, Chhattisgarh, Tamil Nadu, Gujarat, Andhra Pradesh, Telangana and Rajasthan accounts for about 88.5% of the total registration units of the country. In the case of urban areas, the highest number of registration units are in Tamil Nadu (1984), followed by 1822 in Uttar Pradesh.

3.4 At the national level, about 3.4 percent of Registration Units are located in Urban areas and 96.6% of registration Units are in Rural areas.

3.9 Registration of Birth & Death within the prescribed time limit of 21 days

3.9.1 Statement 13 shows the percentage of births and deaths registered within the prescribed time limit of 21 days. The registered births and deaths have been classified into four categories depending upon their period of registration. The four time periods considered for the purpose are: (i) within the prescribed time limit (up to 21 days), (ii) After 21 days but within 30 days, (iii) After 30 days but within 1 year, and (iv) More than 1 year. For 2024, Thirty-five (35) States/UTs have provided data on Births and Deaths Registration within the prescribed time limit (i.e. within 21 days).

3.9.2 On the basis of data received from States/UTs the percentage of registration achieved out of the total registration undertaken in 2024 within the prescribed time limit (21 days) is as under:

Statement 13: Distribution of States/UTs by Registration completed within the prescribed time limit (21 days)

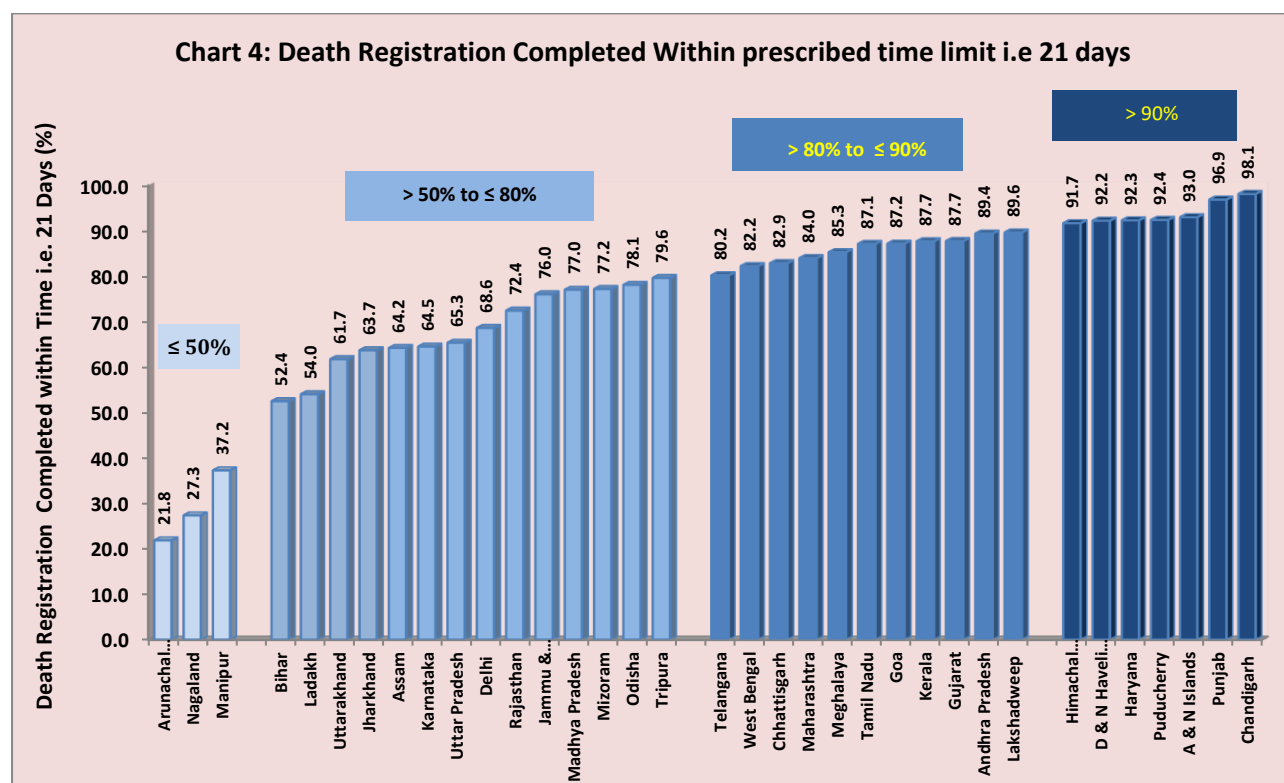

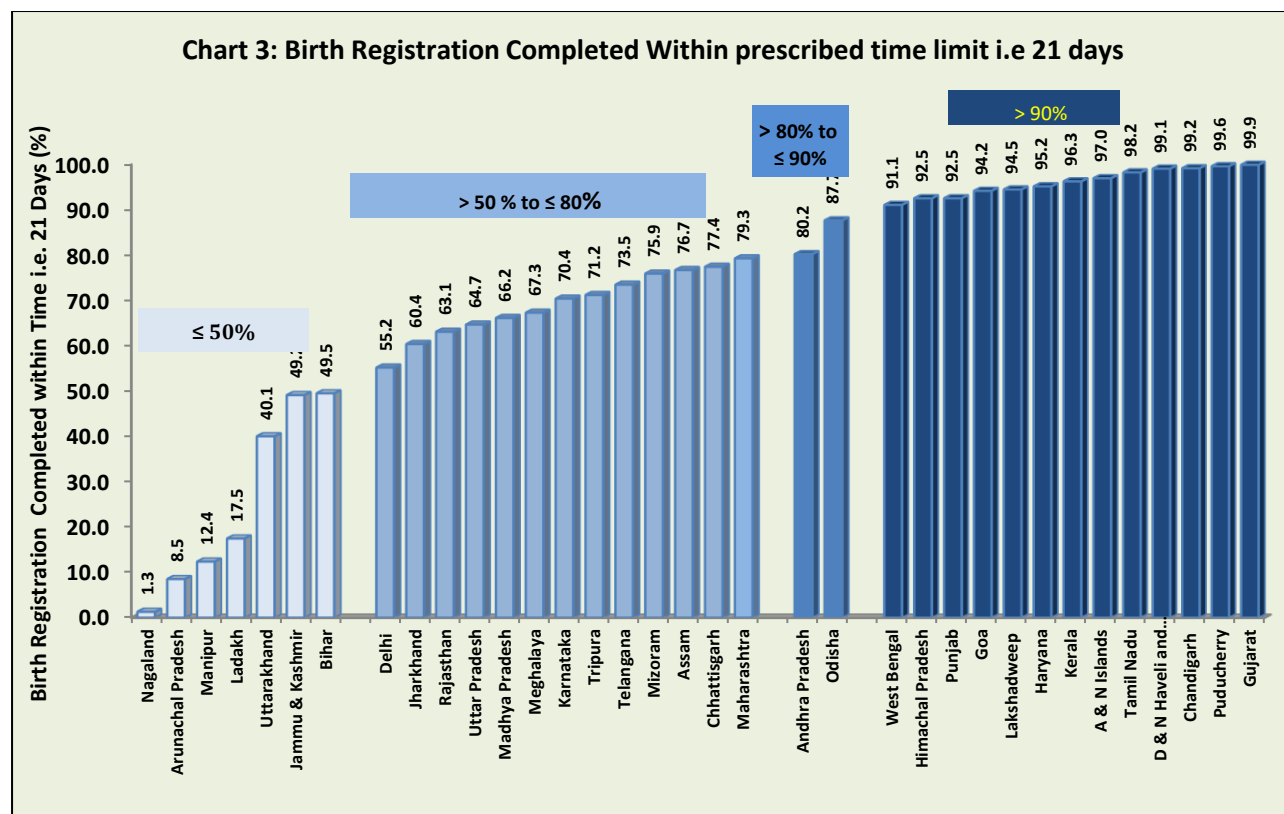

Level (in %)	Name of the States/UTs	
	Birth	Death
More than 90%	Gujarat, Puducherry, Chandigarh, D & N Haveli and Daman & Diu, Tamil Nadu, A & N Islands, Kerala, Haryana, Lakshadweep, Goa, Punjab, Himachal Pradesh, West Bengal (13)	Chandigarh, Punjab, A & N Islands, Puducherry, Haryana, D & N Haveli and Daman & Diu, Himachal Pradesh (7)
More than 80% to less than or equal to 90%	Odisha, Andhra Pradesh (2)	Lakshadweep, Andhra Pradesh, Gujarat, Kerala, Goa, Tamil Nadu, Meghalaya, Maharashtra, Chhattisgarh, West Bengal, Telangana (11)
More than 50% to less than or equal to 80%	Maharashtra, Chhattisgarh, Assam, Mizoram, Telangana, Tripura, Karnataka, Meghalaya, Madhya Pradesh, Uttar Pradesh, Rajasthan, Jharkhand, Delhi (13)	Tripura, Odisha, Mizoram, Madhya Pradesh, Jammu & Kashmir, Rajasthan, Delhi, Uttar Pradesh, Karnataka, Assam, Jharkhand, Uttarakhand, Ladakh, Bihar (14)
Less than or equal to 50%	Bihar, Jammu & Kashmir, Uttarakhand, Ladakh, Manipur, Arunachal Pradesh, Nagaland (7)	Manipur, Nagaland, Arunachal Pradesh (3)

Note: Partial information submitted by Sikkim has not been considered while consolidating the data for the time gap in the Registration of Births & Deaths.

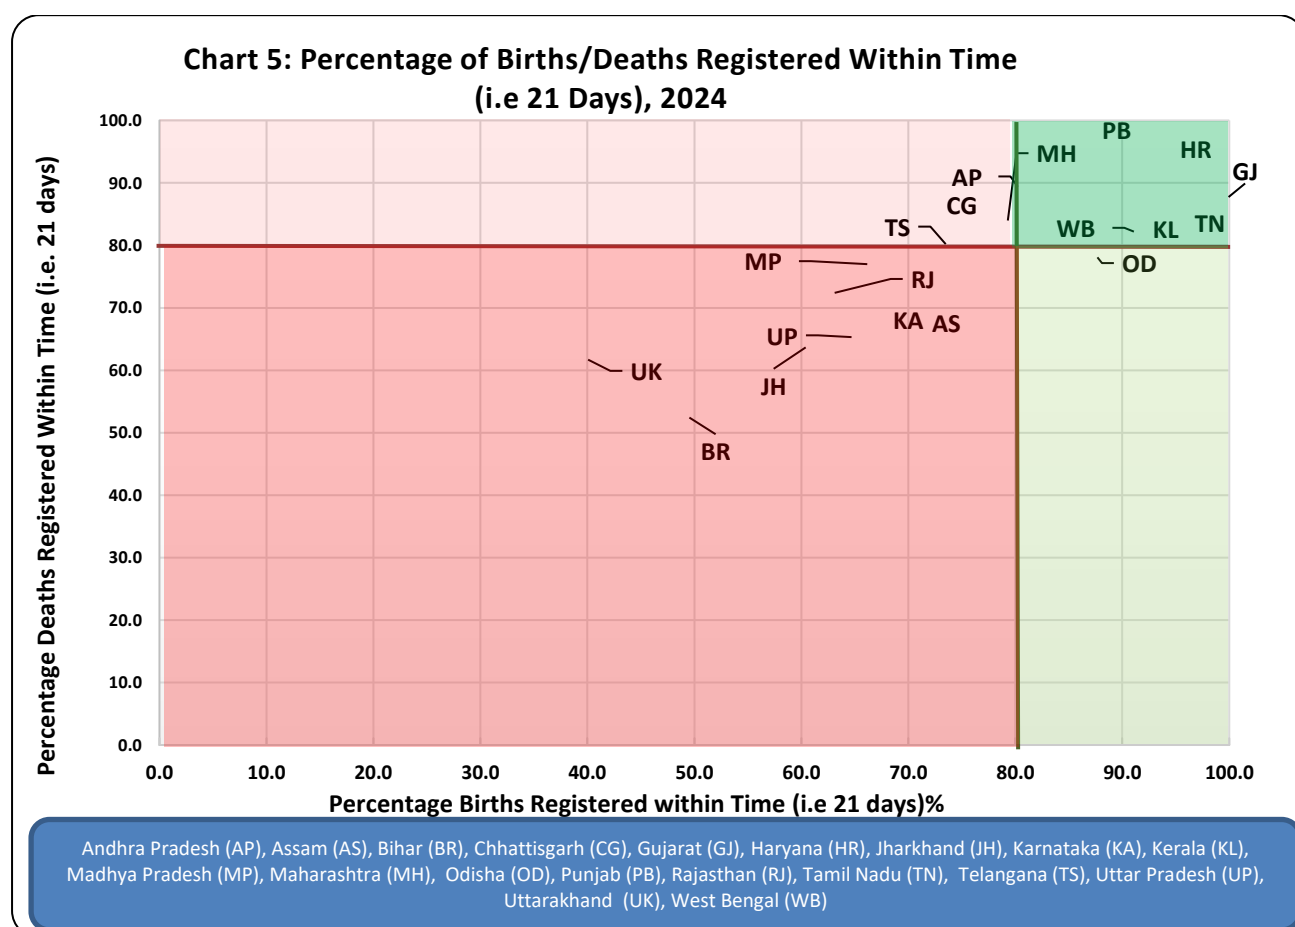

3.9.3 It has been observed that 13 States/UTs have achieved more than 90% registration of births within the prescribed time limit of 21 days. Further, 2 States are in the category of more than 80 to less than or equal to 90 percent, 13 States/UTs are in the category of more than 50 to less than or equal to 80 percent, and the remaining 7 States/UTs are under the category of less than or equal to 50 percent.

3.9.4 Similarly, 7 States/UTs have achieved more than 90% registration of deaths within the prescribed time limit of 21 days. Other 11 States/UTs fall in the category of more than 80 to

less than or equal to 90 percent, 14 States/UTs are in the category of more than 50 to less than or equal to 80 percent and the remaining 3 States/UTs are under the category of less than or equal to 50 percent in death registration within the prescribed time limit of 21 days. Chart 3 & 4 shows the percentage of Births and Deaths registered within the prescribed time period of 21 days respectively.

3.9.5 Chart 5 shows the performance of major states in terms of the percentage of registrations done within the prescribed time, i.e., 21 days. In seven states—namely Tamil Nadu, Haryana, Punjab, Gujarat, Kerala, West Bengal, and Andhra Pradesh—the share of registered births and deaths within 21 days is more than 80 % in terms of both total registered births and deaths. In the case of Odisha, the share of timely registration is between 80 and 90 % in the case of births, and in the case of deaths, it is slightly lower, in the 70 to 80 % category. While in the case of Maharashtra, Chhattisgarh, and Telangana, the share of timely registration of births is between 70 and 80 % and the corresponding share of deaths is slightly higher, in the range of 80 to 90 %. In the case of Karnataka and Assam, the share of within-time birth registration is between 70 and 80 %, while in the case of deaths, it is slightly lower and is between 60 and 70 %. In the case of Madhya Pradesh, Rajasthan, Uttar Pradesh, and Jharkhand, the share of timely birth registration is between 60 and 70 %; for death registration, it is slightly higher at 70 to 80 % for Madhya Pradesh and Rajasthan, and between 60 and 70 % for Uttar Pradesh and Jharkhand. Finally, for the remaining two major states, Uttarakhand and Bihar, timely registration of births is between 40 and 50 %, while the corresponding figures for deaths range from 50 to 70 %.

In Statement 14, the State/UT-wise percentage of birth registered within the prescribed time limit has been arranged in descending order.

Person*	25473389	100.0	8938301	100.0

*Note: * Total of male and female may not tally with persons due to inclusion of sex not reported.*

3.10.1 Chart 6 on the sex-wise distribution of registered births reveals that the share of registered female births is about 5 percent less than that of registered male births. On the other hand, in the case of death registration, the share of male registration is about 20.8 percent more than that of females. (Chart 7).

3.11. Sex-wise Distribution of Registered Births and Deaths in Major States

3.11.1 Statement 17 gives the sex-wise distribution of registered births and deaths for the major States (population of more than 1 Crore as per Census 2011). Chart 8 shows sex-wise registered births in Major States. The data on birth and death registrations reveal that the share of male registrations is more than females in almost all these major States. This gap is much

wider in the case of birth registration in Bihar, Jharkhand, Uttar Pradesh, Uttarakhand, Rajasthan, Haryana, Gujarat, Telangana, Maharashtra, Madhya Pradesh, and Punjab.

Madhya Pradesh, Uttarakhand, Telangana, Maharashtra, Punjab, Gujarat, Rajasthan, Chhattisgarh, Karnataka and Andhra Pradesh.

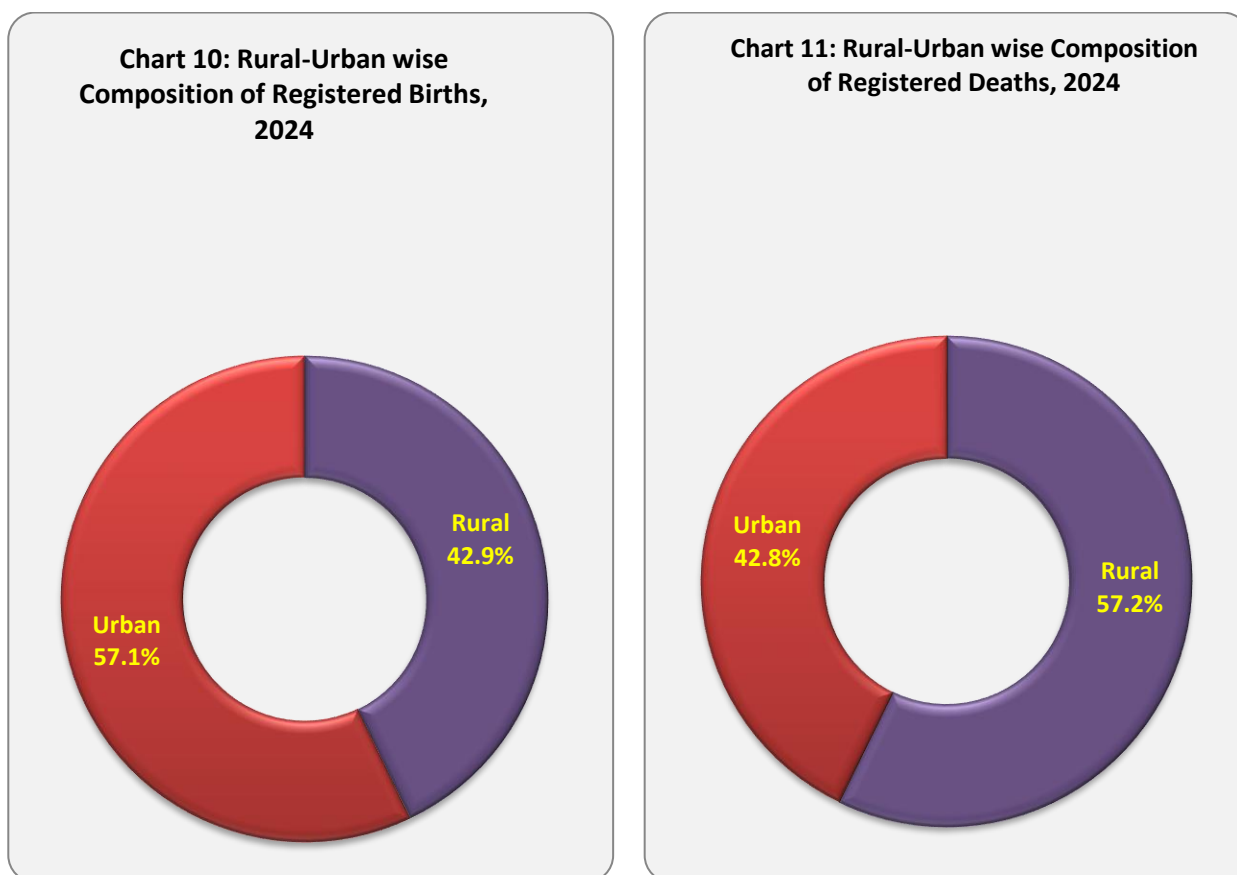

3.12 Rural-Urban composition of Registered Births and Deaths, 2024

3.12.1 Statement 18 gives the Rural-Urban distribution of registered births and deaths. Rural-Urban distribution of registered births reveals that the share of births registered in Urban areas is about 14.2 percent more than that of births registered in rural areas. While in case of registered deaths, the share of rural areas is about 14.4 percent more than that of Urban areas.

3.13. Rural-Urban Composition of Registered Births and Deaths in Major States

3.13.1 The Rural-Urban composition of Registered Births and Deaths in major states is presented in Statement 19. The data on Rural-Urban distribution of birth and death registrations reveal that the share of rural registration is higher in Assam, Bihar, Chhattisgarh, and Jharkhand, than the share of Births registered in urban areas. In the remaining 15 Major States, the share of births registration is higher in case of urban areas. On the other hand, in the case of Death Registration, the share of Rural Registration is higher in almost all major States except Haryana, Maharashtra, and Telangana.

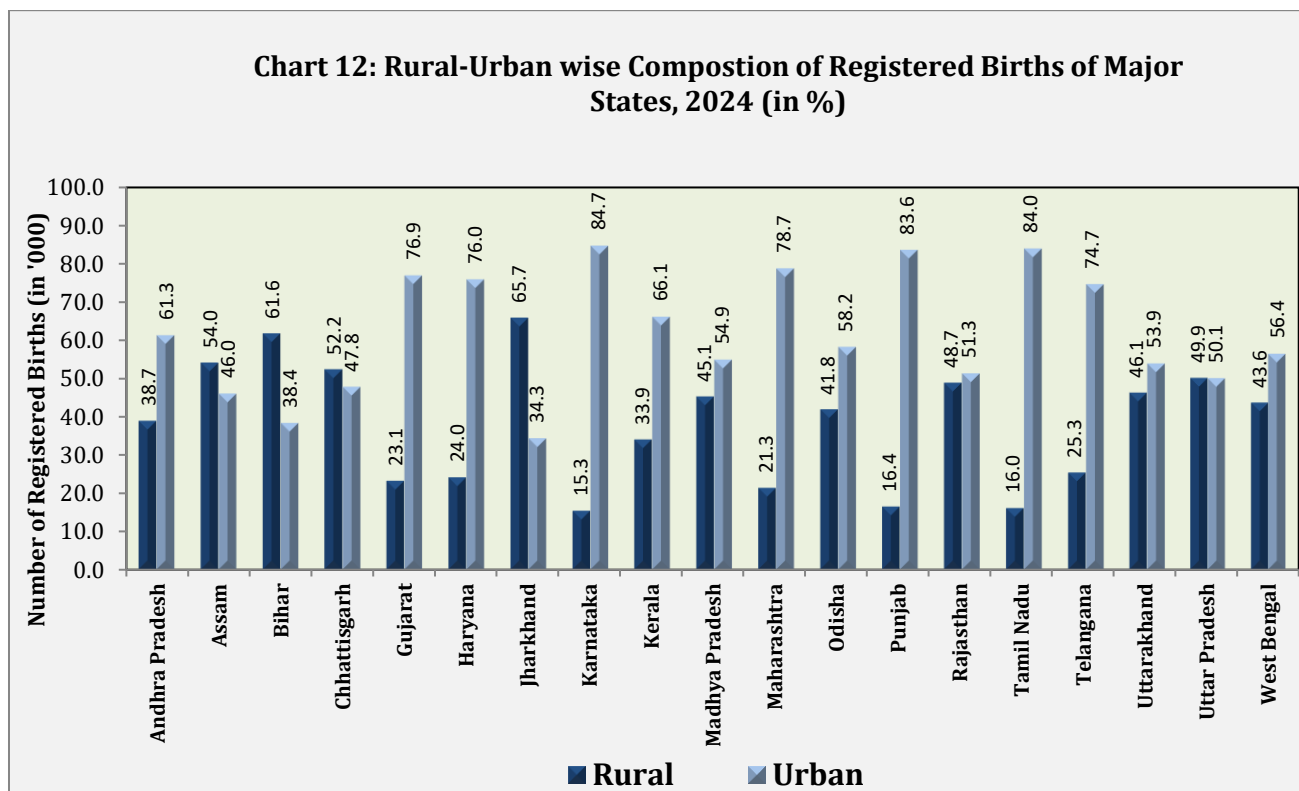

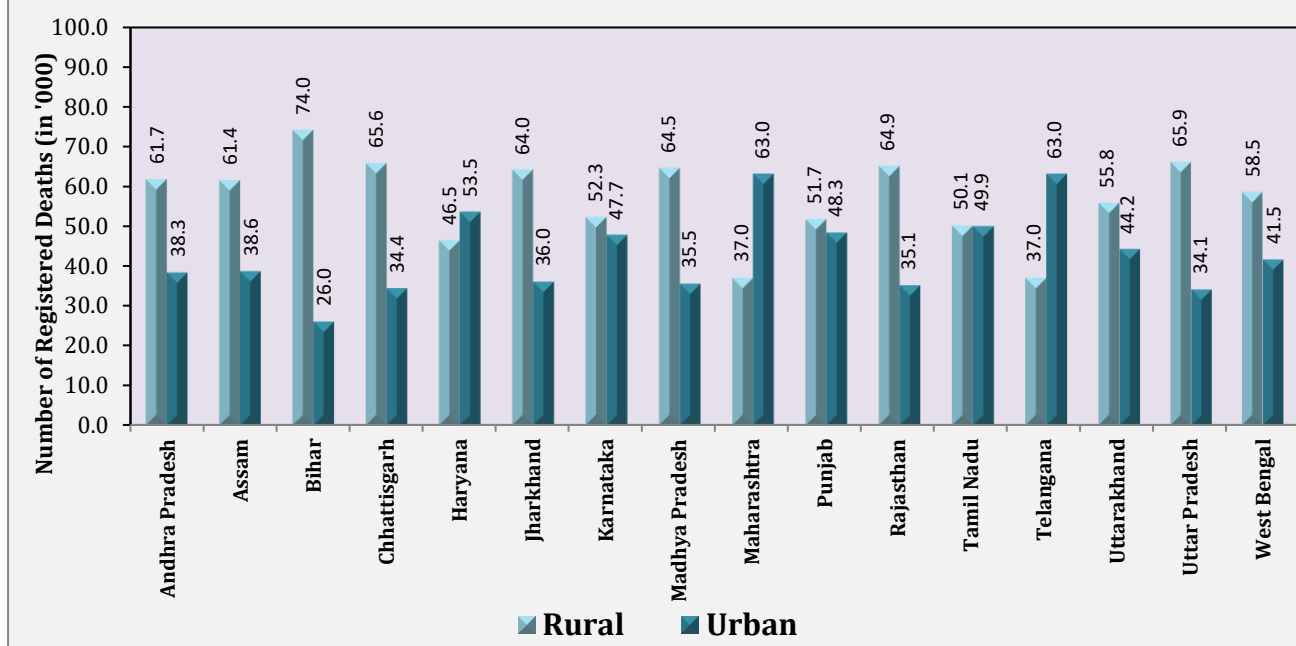

Chart 13: Rural Urban wise Composition of Registered Deaths of Major States, 2024 (in %)

3.14 Medical attention received at the time of birth and death

3.14.1 The complete information in respect of birth by type of medical attention at the time of delivery and medical attention received by the deceased at the time of death during the year 2024 has been received from 35 States/UTs. As partial information was submitted by Sikkim, its data has not been considered. In the case of Punjab, the relevant information excludes cases registered more than 1 year of delay. The distribution of medical attention received at the time of birth for these States/UTs has been illustrated in Chart 14. The data shows that the majority of births have occurred in institutions, either in government or private ones. Institutional births occurred in about 79.4% of cases, while 4.1% of the cases were attended by a Physicians/Nurse/midwife. However, about 8.4% of the events were attended by an untrained midwife/ Dai, and another 8.1% by others, including Not stated/Not Available.

3.14.2 In the case of Medical Attention received by deceased at the time of death, as evident from Chart 15, 24.8% of the total registered deaths have occurred in institutions; about 11.9% of registered deaths were reported under the category of medical attention other than institutions, another 10.8% by others, including Not stated/Not Available and 52.5% of deceased did not receive any medical attention at the time of death.

3.15 Infant Deaths

3.15.1 The infant deaths registered by place of occurrence (Rural /Urban) of the event for the year 2024 have been given in Statement 20. It may be observed that the share of rural area is only 15.8% while that of urban area is 84.2% in total registered infant deaths during the year.

Statement 20: Percentage distribution of registered infant deaths by place of occurrence, 2024

Place of Occurrence	No. of Registered Deaths	No. of Registered Infant Deaths	% Share of Registered Infant Deaths by Place of Occurrence	% of Registered Infant Deaths to Total Registered Deaths

Note: *: Includes the cases where sex not reported/available, and may not match with the addition of male and female.

3.16 Still-Births

3.16.1 The World Health Organization (WHO) defines a still birth as a baby born with no signs of life at or after 28 weeks' gestation. Still birth, also known as foetal death, has been defined as *'death prior to the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of pregnancy and which is not an induced termination of pregnancy. The death is indicated by the fact that after such expulsion or extraction, the fetus does not breathe or show any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles. Heartbeats are to be distinguished from transient cardiac contractions; stillbirths are to be distinguished from fleeting respiratory efforts or gasps.'*

3.16.2 Statement 22 presents stillbirths registered by place of occurrence (Rural /Urban) of the event for the year 2024. It may be observed that in total registered stillbirths, the share of rural registered stillbirths is only 31.0%, while this share is about 69.0.3% in Urban Areas. State/UT-wise registered stillbirths is depicted in Table 4 (Page No. 79).

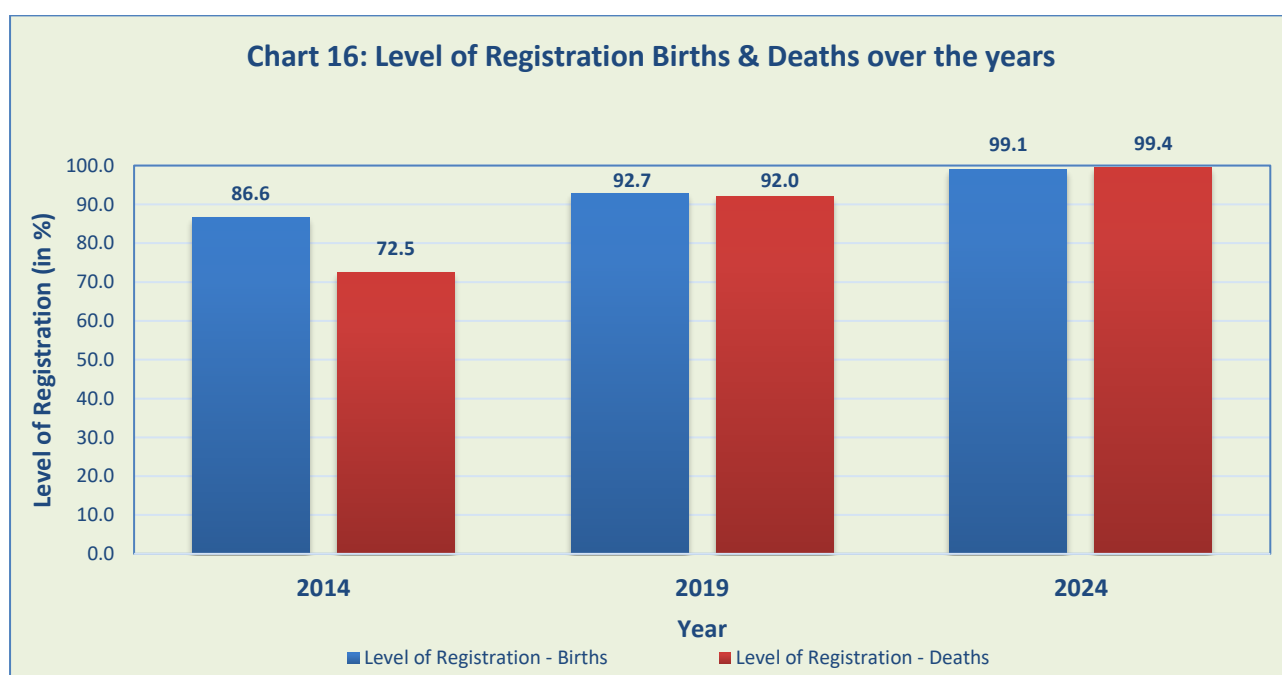

Statement 22: Still-Births registered during 2024

Total	81117	100.0

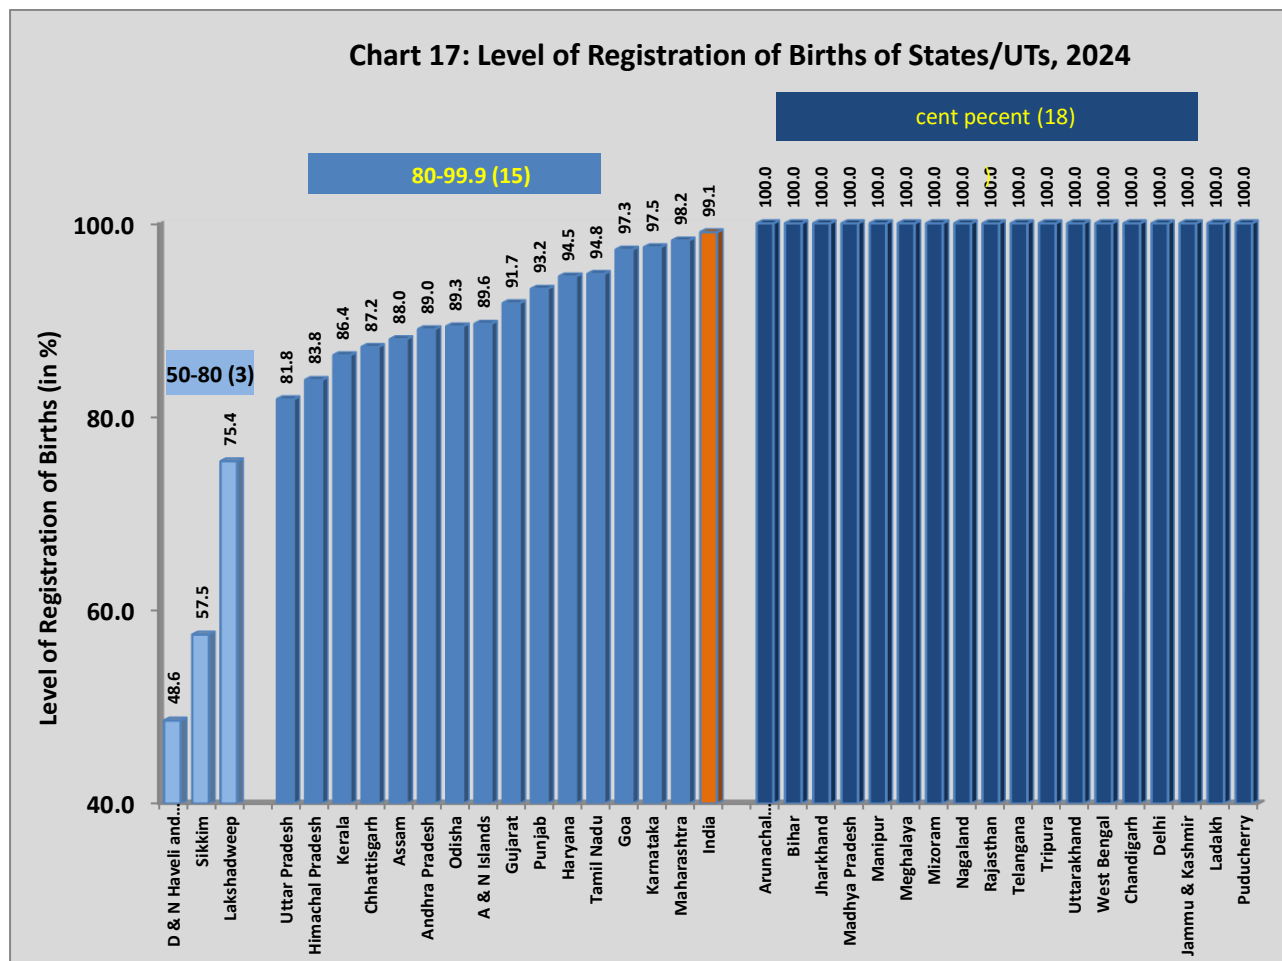

Level of Registration (LOR)

3.17.1 The level of registration, defined as the percentage of registered births/deaths to the births/deaths estimated through SRS, determines the performance of a State / Union Territory in registration of births and deaths. In the absence of reliable estimates of number of births and deaths on a year to year basis from any other source, the estimated number of events as revealed from SRS is used to calculate the level of registration. The level of registration so calculated is very high for some of the smaller States/Union Territories either due to the lower estimates of vital events than the actual and or due to the fact that SRS estimates of vital events are based on the place of usual residence while events are registered at the place of occurrence irrespective of the place of residence.

3.17.2 Under this section, level of registration of Births & Deaths is based on revised mid-year population projections based on census 2011. The levels of registration of births and deaths for India and States/UTs for the period 2011 to 2019 and 2023-2024 are shown in Statements 23 and 24 respectively. The level of registration of births has increased from 86.6% in 2014 to 92.7 in 2019 and further rose to 99.1 in 2024 i.e. in last 11 years an increase of about 12.5%. Similarly, the level of registration of deaths has also increased from 72.5% in 2014 to 92.0% in 2019 and 99.4% in 2024, showing an increase of 26.9% over the last 11 years. Chart 16 depicts the trend in level of registration of births and deaths over the years. Due to continuous efforts of the Central Govt., State Govts. and UT Admns. the gap between Levels of Birth and Death Registration is narrowing down with a difference of 0.3% observed in 2024.

3.17.3 Chart 17 gives the level of registration of births for India and States/UTs for the year 2024. There are 18 States/UTs namely Arunachal Pradesh, Bihar, Jharkhand, Madhya Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Rajasthan, Telangana, Tripura, Uttarakhand, West Bengal, Chandigarh, Jammu & Kashmir, Ladakh and Puducherry which have shown cent percent level of registration of births in 2024.

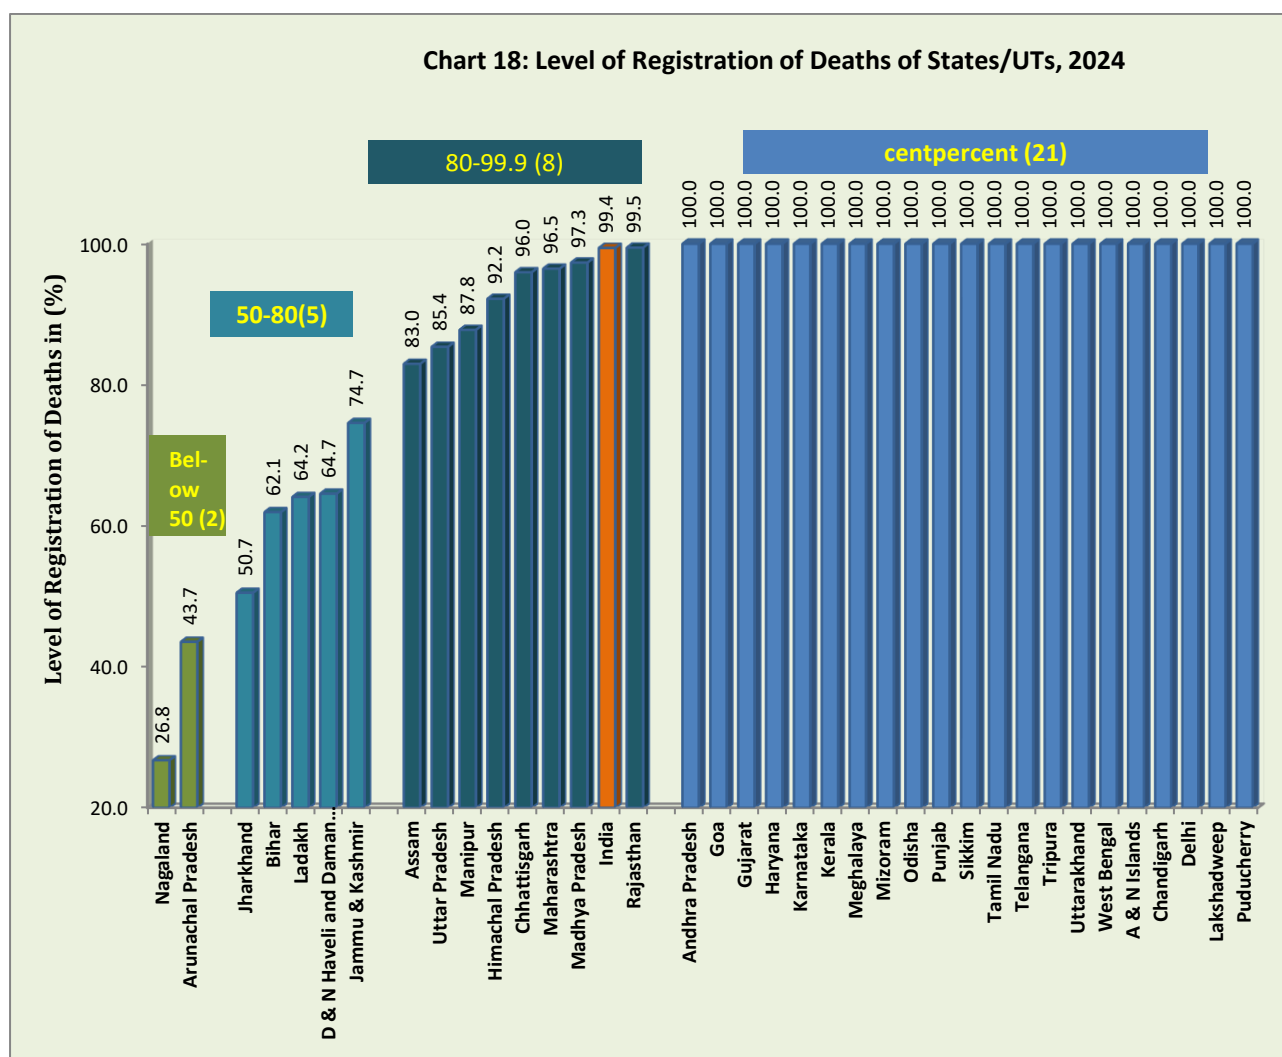

3.17.4 There are 18 States/UTs where level of Registration of Birth is above the All India level of 99.1%, including 7 major States namely West Bengal, Uttarakhand, Telangana, Rajasthan, Madhya Pradesh, Jharkhand and Bihar. Remaining 12 Major States, namely, Maharashtra, Karnataka, Tamil Nadu, Haryana, Punjab, Gujarat, Odisha, Andhra Pradesh, Assam, Chhattisgarh, Kerala and Uttar Pradesh are below the All India Level but having the Level of Registration of Births above 80 Percent.

3.17.5 Statement 23 reveals that the States/UTs continue to function at different levels of registration of births during 2012-2019 and 2023-2024
